The Iron County Local Impact Committee will hold a meeting with mining and IRRRB officials in MN on Nov. 14th and 15th. Discussion will focus on mining reclamation but may also include implications of mining, dealing with mining-induced growth, and priorities for local action.

Members of the public wishing to attend at their own expense are asked to call Iron County Clerk Mike Saari at 715-561-3375 for details. Arrangements to attend must be made prior to Wed. Oct. 17th to meet mining company requirements.
